[Economics Of Agricultural Development World](#)

The Economics of Agricultural Development: An Overview 1

Agricultural development as an analytical topic, with economics as an organizing framework, dates to the rapid emergence of Western Europe from the late 18th century. Economic historians have documented the critical role of agriculture in the development of

5 Agricultural development and economic growth - World Bank

5 Agricultural development and economic growth Agriculture has been transformed in the past three decades. Output has increased at nearly twice the rate of earlier periods, fueled partly by the developing world's greatly increased capacity to produce food and partly by changes in the developed countries. Above all else, there has been unprece-
